PRESIDENT'S MESSAGE

By Elizabeth Bucciarelli, MLS, MSTs

As our work lives become busier, we can lose sight of how important it is to take the time to read our professional literature and attend association meetings and conferences. I encourage each of you to spend some time browsing this newsletter where you'll find a rich collection of articles, association updates, notices for upcoming events, and more.

I want to call your attention to the last two events of the year and they are exciting! The Program & Professional Development Committee has been hard at work securing thought-provoking speakers and appealing locations for all of us to gather together in-person.

These events are listed below. Go to the MDMLG Upcoming Meetings & Events page (<http://www.mdmlg.org/meeting.htm>) for further information, such as registration, parking information, and more.

- **MDMLG General Business Meeting and Presentation from Michelle Kraft on April 17, 2024** at the **Michigan School of Psychology** from 12:30pm-3:00pm
- **MDMLG Annual Summer Meeting, Luncheon and Presentation from Pewabic Pottery on June 20, 2024** at **The Whitney in Detroit**

I hope to see all of you at the next two events of the year. Let's learn and celebrate together!

Elizabeth Bucciarelli, MDMLG President

- **David Stewart**, Medical Librarian, Oakland University William Beaumont School of Medicine Library
- **Jill Turner**, Librarian, University of Detroit-Mercy School of Dentistry

MDMLG EXECUTIVE BOARD AND COMMITTEE ROSTER 2023-2024

New members of the MDMLG Executive Board and MDMLG Committees, introduced at the annual summer luncheon in June, are listed below. Each Executive Board member begins their role on August 1. All board member roles receive voting privileges. Treasurer, Membership Service Officer, Secretary, and Outreach Officer are elected positions to two-year terms. President-Elect and Nominating Committee members are elected to one-year terms. Committees are by both appointment and on a volunteer basis.

President	Elizabeth Bucciarelli Eastern Michigan University
Past-President	Margaret Hoogland University of Toledo
President-Elect	Steven Moore Henry Ford Health, Sladen Library
Treasurer	Andrea Rogers-Snyr Corewell Health East Medical Library
Membership Services Officer	Stephanie Stebens Henry Ford Health, Sladen Library
Secretary	Amanda Kelly Henry Ford Macomb
Outreach Officer	David Stewart Oakland University William Beaumont School of Medicine Library
Social Media Officer	Michelle Rau Oakland University William Beaumont School of Medicine Library
Auditor	Jill Turner University of Detroit Mercy, School of Dentistry Library
Webmaster	Valerie Reid Oakland University William Beaumont School of Medicine Library
Archivist	Ella Hu Wayne State University, Shiffman Medical Library

COMMITTEE ROSTER 2023-2024

Nominating Committee	Amanda Kelly, Chair Mariela Hristova Merle Rosenzweig
Newsletter Committee	Steven Moore, Chair David Stewart Jill Turner
Program & Professional Development Committee	Steven Moore, Chair Brianna Andre Bethany Figg Jill Turner
MHSLA Representative MHLSA Alternate Rep.	Nancy Bulgarelli Stephanie Stebens

MDMLG EXECUTIVE BOARD CALL FOR NOMINATIONS

Would you like to be more involved in MDMLG? Connect more closely with colleagues, gain more knowledge and experience in the local medical librarianship community, and maybe even add a little sparkle to your CV or resume, all while accruing some AHIP points?

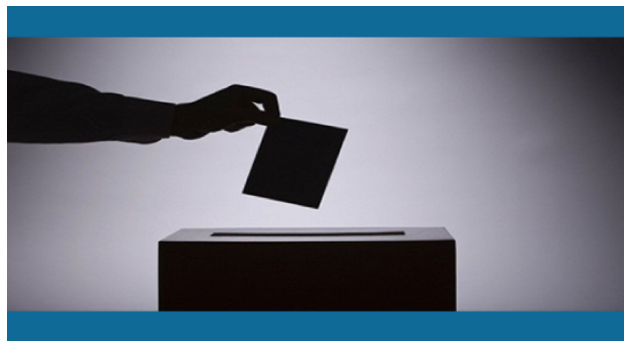

Then please join us on the MDMLG Executive Board!

The Nominating Committee is currently accepting nominations for the following positions, which are outlined below. If you are interested in nominating yourself, or just getting additional information on the open positions, please feel free to reach out to any of the Nominating Committee representatives. We would love to speak with you!

Amanda Kelly, Chair akelly14@hfhs.org

Mariela Hristova hristova@oakland.edu

Merle Rosenzweig oriley@umich.edu

The President-Elect: at the request of the President or during the President's absence or inability to act, shall perform the duties and exercise the functions of the President and when so acting shall have the powers of the President. The President-Elect shall act as Chair or Co-Chair of the Program and Professional Development Committee. They shall also have such other powers and perform such other duties as may be assigned by the Executive Board, prescribed by these Bylaws or MDMLG's parliamentary authority.

Treasurer: The Treasurer shall prepare and submit to the Board and the members of MDMLG a proposed annual budget and recommendations regarding fiscal policy, and at each business meeting, an account of MDMLG's current financial condition. The Treasurer shall also perform other duties as necessary when disbursing MDMLG funds.

Membership Services Officer: The Membership Services Officer shall be responsible for processing membership renewals, communicating member information to the Webmaster for the purposes of the membership directory, and all other duties as outlined in the procedural document.

The Nominating Committee (3 open positions):

The Nominating Committee will nominate candidates for election to the Executive Board. In even-numbered years of the replacement cycle, candidates must be provided to replace the President-Elect, the Treasurer and the Membership Services Officer. In odd-numbered years, candidates must be provided to replace the President-Elect, the Secretary and the Outreach Officer.

MDMLG COMMITTEES CALL FOR MEMBERS

Members of the Nominating Committee and the chair of the Program & Professional Development Committee are elected positions, but there are additional opportunities to serve with your colleagues without winning a popularity contest. Please let Elizabeth Bucciarelli or a member of the Nominating Committee know if you would like to join a committee. Help is needed in areas such as Program & Professional Development, Outreach, as MHSLA Representatives, and more!

SPRING GENERAL BUSINESS MEETING

Please join us—in person!—for our spring General Business Meeting held at the **Michigan School of Psychology**.

Committee chairs and executive board members, be sure to share your meeting report with the MDMLG Secretary prior to the meeting.

Following the meeting, the Program and Professional Development Committee is hosting a presentation by **Michelle Kraft**, AHIP, FMLA. Michelle is the Library Director of the Cleveland Clinic, co-editor of the *Journal of the Medical Library Association*, and author of the popular blog [Krafty Librarian](#). Attendees of MLA '23 in Detroit may remember Michelle from her Janet Doe Lecture on medical librarians and fake news, or her time as President of MLA in 2015-2016.

For our presentation, Michelle will discuss promoting the field of health sciences librarianship.

Snacks and beverages will be provided following our general business meeting.

[Registration](#) is encouraged but not required. The meeting is open to all MDMLG members; non-members who wish to attend the presentation are encouraged to [join and become a member of MDMLG](#).

Please contact Steven Moore with any questions.

Schedule:

- 12:30pm-1:00pm: Registration/Welcome
- 1:00pm-1:45pm: General Business Meeting
- 1:45pm-2:00pm: Break
- 2:00pm-3:00pm: A Presentation from Michelle Kraft

UPCOMING EVENTS

Upcoming events and activities relevant to MDMLG members.

April 17: MDMLG Spring General Business Meeting, 1pm, in-person @ Michigan School of Psychology

April 25: NNLM Class, "From Wallflowers to Power Players: Mastering the Art of Networking," 12:30pm, free

May 2: MLA Webinar, "ChatGPT and Beyond," 2pm, \$65-\$85

May 14: NNLM Class, "Drive Thru Data: Using NLM APIs to Access Information Fast," 2pm, free

May 15: MHSLA Pre-Conference: "Preparing for Takeoff," Western Michigan University, 11:30am-4pm, \$25 for non-members

May 16-17: MHSLA/MiALA Joint 2024 Annual Conference, Western Michigan University, register at [miala.org](#)

May 18-21, 2024: MLA '24 [Annual Conference](#), Portland, OR

May 29: NNLM Class, "The NIH Data Management and Sharing Policy for non-data librarians," 12pm, free

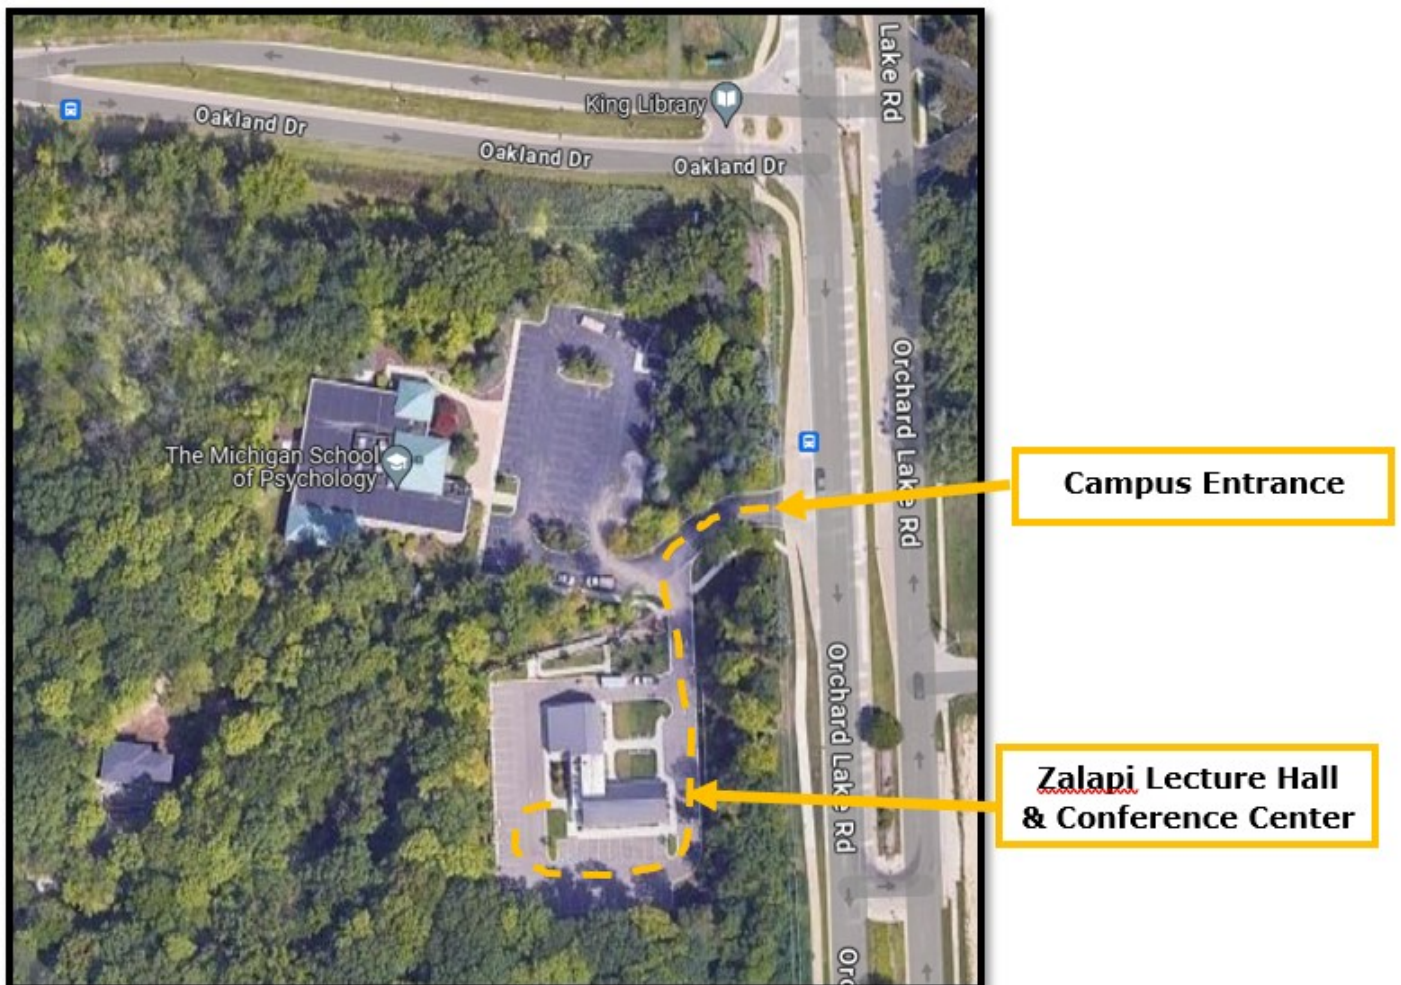

Address:

Zalapi Lecture Hall and Conference Center, Blau Building
Michigan School of Psychology
26811 Orchard Lake Rd.
Farmington Hills, MI 48336

Note: Be sure to check traffic/road status the day of the meeting as the I-696 corridor between I-275 and M-10 is under construction again and both traffic directions have been moved to one side. This may impact on/off ramp openings and closings.

Visitor parking is freely available on the MSP campus. When you arrive, head to the left for parking near the Zalapi Lecture Hall and Conference Center in the Blau Building.

Many thanks to Stephanie Swanberg and her colleagues at Michigan School of Psychology for hosting us!

SAVE THE DATE: MDMLG ANNUAL SUMMER MEETING AND LUNCHEON

Image from Facebook

Please save the date of **June 20, 2024** for the MDMLG Annual Summer Meeting and Luncheon, which will be held in-person and indoors at [The Whitney](#) in Detroit.

Registration fees will include lunch, presentation, and valet parking.

Members of MDMLG will receive a discount on registration.

Lunch will be served with three entrée choices, salad or soup, bread service, and dessert. Non-alcoholic beverages will be provided. Entrée choices will be confirmed closer to the date.

Following lunch, Alethea Davenport of [Pewabic Pottery](#) will present on Pewabic's history in Detroit.

Check the [MDMLG Meetings page](#) for more details and registration later this spring.

MIRL WEBSITE NOW ON SCHOLARLY COMMONS

MIRL

Medical Institutional
Repositories in Libraries

The annual Medical Institutional Repositories in Libraries (MIRL) Symposium is held virtually each November as a way for library professionals to gather and discuss topics related to institutional repositories in a healthcare setting.

The MIRL website is now hosted on Sladen Library's Scholarly Commons, the institutional repository for Henry Ford Health. The website can be accessed at <https://scholarlycommons.henryford.com/mirl/>. Content from past years will appear on both the new MIRL site as well as the retired site on George Washington University's IR, hsrc.himmelfarb.gwu.edu/mirl.

Presentations can also be viewed on the MIRL YouTube Channel, youtube.com/@MIRLSymposium.

Anyone interested in participating in MIRL '24 is encouraged to [email Steven Moore](#).

MIALA 2024 ANNUAL CONFERENCE: "LIBRARIES: WHERE IDEAS TAKE FLIGHT"

The Michigan Academic Library Association ([MiALA](#)), a chapter of the Association of College & Research Libraries, is a professional association of academic library staff and libraries in Michigan. MiALA has joined the Michigan Health Sciences Libraries Association ([MHSLA](#)) for their annual conference on May 15-17.

On Thursday, May 16 and Friday, May 17, the joint MiALA/MHSLA conference, "Libraries: Where Ideas Take Flight" will feature networking events, breakout sessions, posters, tours, and a keynote address by librarian [Mychal Threets](#).

For more information, visit the [conference website](#).

Image from MiALA.org

MHSLA 2024 PRE-CONFERENCE: "PREPARING FOR TAKEOFF"

On Wednesday, May 15, join MHSLA for their pre-conference event, "Preparing for Takeoff," held at the Homer Stryker School of Medicine at Western Michigan University in Kalamazoo, MI. The pre-conference includes training from EBSCO and Elsevier, a continuing education course, a tour, and a MHSLA business meeting.

For more information, visit the [pre-conference website](#).

HYPOTHESIS SPRING ISSUE NOW AVAILABLE

Published by the Research Caucus of the Medical Library Association, and hosted and supported by the IUPUI University Library, *Hypothesis* is an international peer-reviewed journal that provides a venue for original research and research-related content for MLA members, medical librarians, and librarians interested in research.

The first issue of the year is now available and comprises:

- [A Research Article](#) on public health in the news, by Miriam Ramirez et al.
- Part Three of introduction to statistics and an introduction to [Data Bytes](#) by Caitlin Bakker.
- [Voices of Experience](#) submission titled, "Case-based EBM instruction for Osteopathic Medical Students: A Case Report."
- A [Brief Report](#) by Gwen Geiger Wolfe, et al.

The issue is available on the journal website at <https://journals.iupui.edu/index.php/hypothesis/index>.

NEW MEMBER SPOTLIGHT: KATRINA LAWRENCE, MLS/MIS

Please help welcome our new librarian at Sladen Library, Katrina Lawrence!

Katrina Lawrence, MLS/MIS, holds a Bachelor of Arts in International Studies from Trinity Western University and later earned dual MLS/MIS degrees from Indiana University-Bloomington.

Before joining Henry Ford Health's Sladen Library in 2023, Katrina worked in public, corporate, and academic libraries including the Loyola University Chicago Health Sciences Library and Ascension St. Vincent Hospital Medical Library in Indianapolis, IN.

Katrina spends her off time with her two rambunctious dogs, gardening, and reading her ever-expanding pile of books.

Please welcome Katrina to MDMLG when you see her!

RESOURCE ROUNDUP

A RECAP OF RECENT REVISIONS TO RX RESOURCES

Preview PubMed Central Upgrades: The National Library of Medicine invites users to preview the latest improvements planned for the PubMed Central website and [share feedback](#).

NNLM Discovery Podcast: This month's episode of the Network of the National Library of Medicine's podcast is dedicated to Black Maternal Health Week, an "urgent call to action" to address disparities in Black maternal health. Listen [here](#).

Have an update? Share it with the Newsletter Committee for inclusion in the next newsletter.

JOB POSTINGS

Visit the Job Bank at
[MDMLG.org](https://mdmlg.org)

Librarian, **Sladen Library, Henry Ford Health** (posted February 2024)

Under direction of department leadership, provides highly specialized professional library services to physicians, researchers, other clinical service providers, and hospital leadership.

Continuing Medical Education Administrator, **Central Michigan University Health** (posted January 2024)

Located in Saginaw, this position will lead efforts to sustain high-quality continuing medical education, ensure successful continuation of accreditation, and grow revenue opportunities including grants, contracts, and gifts.

Research Librarian, **Ohio State University** (posted February 2024)

Tenure Faculty position that develops expertise in areas of interest to basic scientists; delivers programs aimed at the information needs of basic scientists in the health sciences; engages in successful relationships with faculty, students, and staff in assigned areas; and collaborates with other librarians and research-oriented units across the medical center and University.

INTRODUCING SLADEN'S GRAPHIC MEDICINE BOOK COLLECTION

BY KATRINA LAWRENCE, MLS/MIS

Inspired by MDMLG's December program on graphic medicine, Sladen Library has created a new collection of print graphic novels on health, medicine, and patient stories. This article was first published on the Henry Ford Health Sladen Library blog on March 29th, 2024.

Sladen Library is offering a new graphic novel collection that focuses on healthcare and medicine topics. You can discover all our Graphic Medicine titles in our [online catalog](#). We will be adding more books over the coming weeks so come visit us soon!

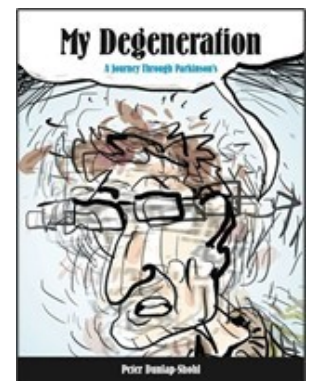

What is Graphic Medicine?

Broadly speaking, Graphic Medicine spans the genres of comics and healthcare. The books can be either fiction or non-fiction and the authorship often represents diverse perspectives and experiences. Many of the titles aim to put a human face to disease and healthcare complexities, while addressing knowledge gaps of traditional literature and book categories. Additionally, as a visual art medium, different styles appeal to an array of readers and literacy levels.

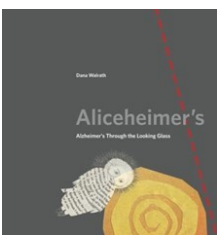

Selected titles include:

***My Degeneration: a Journey through Parkinson's* by Peter Dunlap-Shohl**

Join a patient's journey through a diagnosis of Parkinson's disease at age 43. This book highlights an initial doctor's diagnosis, disease symptoms, drug side effects, relationship dynamics, and mental and physical changes of the disease. With humor and wit, the author chronicles life changes as the disease progresses and along the way educate patients, doctors, and family about clinical and personal side of Parkinson's.

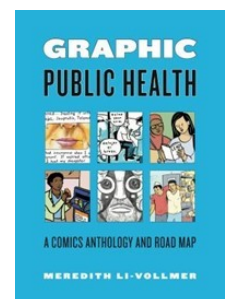

***Aliceheimer's : Alzheimer's Through the Looking Glass* by Dana Wolrath**

Walrath wrote this book to process her grief of her mother's failing mind and the artful illustrations apply well-thought-out humor when life's situations are not so humorous. Through short daily vignettes, this book captures a daughter's perspective through her mother's battle with dementia. Using themes of Lewis Carroll's classic, *Alice's Adventures in Wonderland*, the artwork and reflections demonstrate daily life of caring for a family member with Alzheimer's.

***Graphic Public Health: a comics Anthology and Road Map* by Meredith Li-Vollmer**

Using various comic formats, this book demonstrates how comic strips can shed light and communicate complex public health issues. The book is divided into various health topics that impacts modern society, such as immunization promotion, emerging diseases, opioid addiction prevention, and even climate change. This is an informative primer that can get the reader started in public health advocacy.

Read more about graphic medicine at graphicmedicine.org and view the slides and recording from the Graphic Medicine program by visiting the MDMLG Meetings page: <http://www.mdmlg.org/>

MEDICINE IN MY VIDEO GAMES?

BY DAVID STEWART, MLIS

Video games have become a creative space for translating real-world scenarios into more manageable—and often more fun—situations. If you want to farm without having to get your hands dirty, there are now thousands of games out there that let you grow vegetables or raise livestock. Want to simulate driving a semi-truck? Want to know what it's like to be a goat or a goose and cause mayhem? Want to practice your speed-dating skills? There are simulations for all of that. Throw virtual reality into the mix, and there are ways to be immersed like never before.

However, because we are in the field of health sciences and librarianship, I wanted to highlight a few recent video games that might speak to our profession—some for laughs and others as genuine tools to teach medicine.

Image from Engadget

TWO POINT CAMPUS - MEDICAL SCHOOL / TWO POINT CAMPUS - HOSPITAL

<https://www.twopointstudios.com/>

This duo of games by Two Point Studios takes players on the role of administrator/designer/manager for an entire hospital or medical school campus. This is a mostly zany way to try your hand at running such an institution. The visuals are fairly simple, but things can get chaotic on screen as your campus expands and patients or students start to populate its corridors. These games are of limited practicality, but you never know when a decision you made in-game might be 100% applicable to a real-world situation. Similar games, *Hospital Tycoon* and *Project Hospital*, are different ways to engage in similar content.

TRAUMA CENTER

<https://atlus.com/atlus-titles/>

In the heyday of motion control and touch screen games, an anime game series was released called *Trauma Center* that saw players take up the virtual knife to perform complicated surgeries on animated patients. This series first debuted on Nintendo's handheld device, the DS, but saw iterations on the Wii with subsequent sequels on each platform.

While these games are in no way a suitable surgery simulator, they do offer a tactile experience that can loosely relate to what happens in the hospital setting. Unfortunately, getting access to the *Trauma Center* games in 2024 is a little trickier than some of the others in this list, most of which are readily available through various computer platforms.

Image from Game Rant

BIOGUN

<https://www.biogungame.com/>

Admittedly, *BioGun* is the least useful game on this list. Players take on the role of a vaccine named Bek, who ventures into the body of a dog in order to save it from a deadly disease.

Image from Steam

While inside, players find themselves suitably armed, and *BioGun* devolves into a game about shooting viruses, which, while fun, is probably not educational. That said, the visuals of the game beautifully render a subcellular view of the animal body.

MICROBE INVADER

<https://www.microbeinvader.com/>

Want to play a video game right now, on any old computer in any browser without issue? *Microbe Invader* might just be for you! *Microbe Invader* is a simulation game with a retro look that has players walking around a hospital, interacting with nurses and doctors, and eventually meeting patients. Players can see patient symptoms, order specific diagnostic tests, and then make a diagnosis that will be judged right or wrong on the spot.

This is a game with real information in it and players will likely walk away having learned something or cemented their existing knowledge. Unfortunately, the scope of this game is rather small. There are only about 5-6 diagnoses to make, but if you diagnose fast and accurately, you get more money!

HEART'S MEDICINE SERIES

Available on Steam

For those looking for narrative to follow while they make decisions of life or death, developer GameHouse has created an entire series of games surrounding hospital life.

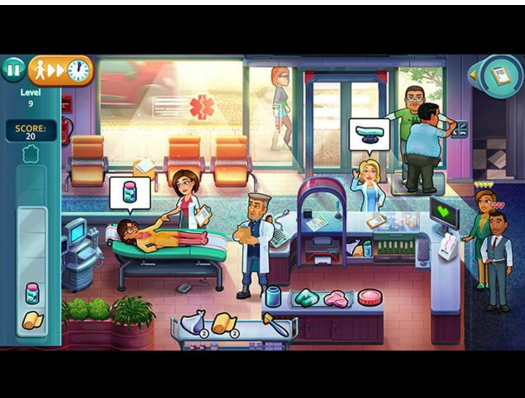

Image from bigfishgames.com

Heart's Medicine games have players taking on the role of Allison as she struggles with balancing her desire to become a surgeon whilst also finding love. Yes, this has your dating simulation and surgery simulation all rolled into one. The applicability of *Heart's Medicine* is, again, a little dubious, but so is popular television titan *Grey's Anatomy*, and that show has undoubtedly spawned its fair share of budding physicians!

VITAL SIGNS: EMERGENCY DEPARTMENT

<https://www.vitalsignsgames.com/>

To end the list with something useful, let me introduce you to *Vital Signs*, an actual Emergency Department simulation that is not only applicable to medical students and residents, but is absolutely free to play. *Vital Signs* puts you in the ER where you will make decisions about patients coming into the hospital, what prescriptions to give them, how to manage their care, and more. It comes with a plethora of cases to work through, and while anyone can technically play the game, it's clear that many of the designs were intended for those in medical school.

Image from Steam

MDMLG BOOK RECOMMENDATIONS: *LEGACY: A BLACK PHYSICIAN RECKONS WITH RACISM IN MEDICINE*

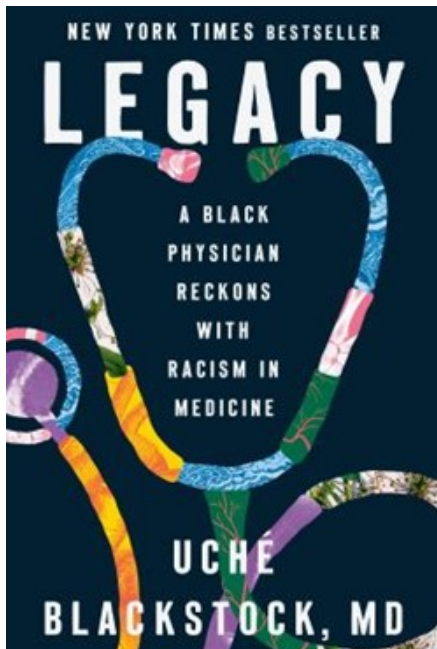

Image from Penguin Random House

“Growing up in Brooklyn, New York, it never occurred to Uché Blackstock and her twin sister, Oni, that they would be anything but physicians. In the 1980s, their mother headed an organization of Black women physicians, and for years the girls watched these fiercely intelligent women in white coats tend to their patients and neighbors, host community health fairs, cure ills, and save lives.

What Dr. Uché Blackstock did not understand as a child—or learn about at Harvard Medical School, where she and her sister had followed in their mother’s footsteps, making them the first Black mother-daughter legacies from the school—were the profound and long-standing systemic inequities that mean just 2 percent of all U.S. physicians today are Black women; the racist practices and policies that ensure Black Americans have far worse health outcomes than any other group in the country; and the flawed system that endangers the well-being of communities like theirs. As an ER physician, and

later as a professor in academic medicine, Dr. Blackstock became profoundly aware of the systemic barriers that Black patients and physicians continue to face.

Legacy is a journey through the critical intersection of racism and healthcare. At once a searing indictment of our healthcare system, a generational family memoir, and a call to action, Legacy is Dr. Blackstock’s odyssey from child to medical student to practicing physician—to finally seizing her own power as a health equity advocate against the backdrop of the pandemic and the Black Lives Matter movement.”

Available at [Penguin Press](#) and other booksellers. Currently sits at 4.48 on [Goodreads](#) (870 ratings). [Kirkus Review](#) | [Publishers Weekly](#)

Have you read this book and want to comment? Please respond to Steven Moore. All comments will appear in the next issue of *MDMLG News*.

This title was recommended by Mary Jo Durivage (retired, John D. Dingell VA Medical Center Library). Mary Jo also recommends for a personal good read “Covenant of Water” by physician-writer Abraham Verghese. He also wrote “Cutting for Stone”.

Submit a book to recommend by contacting members of the MDMLG Newsletter committee. Consider titles related to medicine, healthcare, librarianship, local history, diverse voices, and more—but books of all kinds are welcome!

Q: Who is George Boole's favorite *Star Wars* character?

A: *Andor*.

"Outside of a dog, a book is a man's best friend. Inside of a dog, it's too dark to read."
- unknown

What's in a name? A running list of [nominative determinism](#):

- Brady's with [bradycardia](#)
- Dr. Bone in Endocrinology
- Mr. Carey in Patient Transportation
- Ms. Hart in Cardiology
- Mr. Lancaster in Information Technology
- Dr. Peabody in Urology
- Drs. Ward in Emergency (3!)

HISTORY OF MDMLG

The Metropolitan Detroit Medical Library Group (MDMLG) can trace its roots to the Biological Sciences Group established by the Michigan Chapter of the Special Libraries Association in 1946. It existed primarily as a social group until the mid-1950s when the members began to experiment with various projects. During the 1960s, several plans came into fruition including the production of a serial locator tool, the creation of a union catalog of monographs, and the establishment of an active interlibrary loan network. The group began the process of formal organization and chose its current name in 1970.

For more on MDMLG, its history, and current activity, visit mdmlg.org.
